

# HOW MANY BOXES WILL I NEED?

Don't be overwhelmed by the variety of different types and sizes of moving boxes. Approximately 80% of the boxes you'll need will be the standard small, medium, large, and extra large sizes. Of those you'll need more of the smaller sizes than the larger ones. For example, you'll need more small than medium, and more medium than large. Use the chart below to calculate how many boxes you'll need based on the square footage of your home. This is an estimate so it doesn't hurt to get a few extra just in case.

| HOME SIZE             | SMALL | MEDIUM | LARGE | EXTRA LARGE |
|-----------------------|-------|--------|-------|-------------|
| Less Than 700 sq. ft. | 12    | 9      | 4     | 2           |
| 700-900 sq. ft.       | 15    | 13     | 6     | 3           |
| 900-1200 sq. ft.      | 21    | 19     | 10    | 6           |
| 1200-1600 sq. ft.     | 30    | 29     | 15    | 9           |
| 1600-1800 sq. ft.     | 35    | 33     | 19    | 11          |
| 1800-2200 sq. ft.     | 40    | 39     | 25    | 14          |
